H2020 Project No. 896932 – TTV GUIDE TX
Personalisation of immunosuppression by monitoring viral load post kidney transplantation

Vienna, April 22, 2025

Certificate of participation

To whom it may concern

This document hereby confirms that Diego Rodríguez Ortega has actively participated in the Horizon 2020 project TTV GUIDE TX as part of the clinical research team at Hospital Universitario y Politécnico La Fe, Valencia.

As part of his responsibilities in the study, Mr. Rodríguez Ortega was involved in direct interaction with kidney transplant patients at the time of inclusion. Specifically, he was responsible for their immediate postoperative care and for supporting patient communication and coordination during this critical phase of the trial.

His contribution has been an important part of the project's successful implementation at the Valencia site.

We thank Mr. Rodríguez Ortega for his commitment and valuable support to the TTV GUIDE TX study.

With kind regards,

Gregor Bond
